3 April 2019

Competition

Portfolio of the Year Competition

10 April 2019

Members

AGM - Prize Giving and Buffet

Competitions

The Society performs with distinction in photographic competitions against other clubs. It is a member of the Northern Counties Photographic Federation of 50 clubs across Northern England.

In that Federation's Club Championship competition, Keswick has gained first place in both print and projected image categories for the last two seasons. The Northern Federation is one of fifteen which comprise the Photographic Alliance of Great Britain and in their latest national competitions, Keswick Photographic Society was placed third in the prints category and fifth in the projected images category in the nature section.

We also perform exceptionally well in the nature section of the Photographic Society of America's international inter-club competition, in which we were placed first last season and were promoted to their senior league. These various competitions provide our members with the opportunity to see the photographic work of other clubs which helps them to develop and improve their own photography.

The same principle applies to our internal competitions where we benefit from the comments and critique of our individual photographs by experienced judges from other clubs.

About

We are a very friendly club! Visitors are more than welcome. If you are thinking of joining a camera club, come along for an evening, whatever your photography experience we would love to meet you. Our existing members will only be too pleased to guide, advise and to encourage.

We meet every Wednesday September to April at The Friends Meeting House, Elliot Park, Keswick CA12 5NZ. The Meeting House is opposite Booths Supermarket car park and Bus Station. Parking available.

We organise UK and European expeditions and "non-photo" evenings which help cement the Society's membership together.

Keswick Photographic Society has been running for 45 years.
